

with Timon and Pumbaa:
SAFETY SMART
About Fire!

SING ALONG WITH TIMON AND PUMBAA

Fire safety, fire safety! Show the world what smarts you've got.
Fire safety, fire safety! I'm telling you the topic is hot, hot, hot! Yeah!

Fire safety, fire safety! Let's review the things we know.
Fire safety, fire safety! On your mark, get ready, get set, let's go!

When you face that combination of oxygen, heat and fuel,
Use your safety smarts my friend and follow each and every rule. That's cool! Yeah!

Fire safety, fire safety! Let's review the things we've learned!
Fire safety, fire safety! Know your fire safety and you won't get burned.

A fire needs a spark to start a flame, so never play with matches -
They're not a game!

Got a fire extinguisher? Yes-sir-ree.
How about a smoke alarm or two or three?

Smoke fills up a room? A plan will show the way out.
Then get down, get out and **STAY OUT**.

When you're safe outside, call 9-1-1.
One more chorus and then we're done. Yeah!

Fire safety, fire safety! Oh what safety smarts we've got!
Fire safety, fire safety! I'm telling you the topic is hot, hot, hot! Yow!

Fire safety, fire safety! Look how safety smart we've turned!
Fire safety, fire safety! Know your fire safety and you won't get burned!
Know your fire safety and you won't get burned!
Know your fire safety and you won't get burned!

Now that's what I call safety smart! Yeah!
