About Fire!

Date: _____

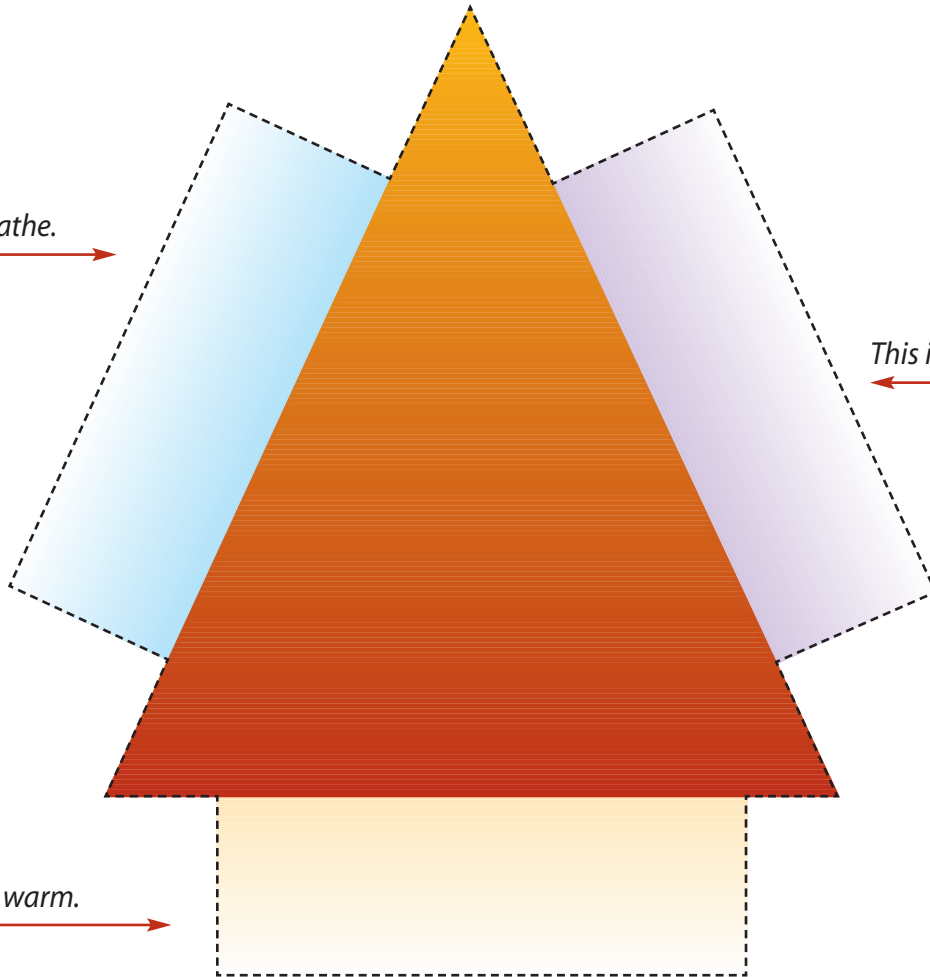

Name: _____

FIRE TRIANGLE (GRADES 2-4)

The fire triangle shows the three things that make fire. When these three things come together, and there is a spark or other ignition source, a fire will start. Work with your team to label each side of the fire triangle. If you need help, use the hints near each box. Bend back each of the boxes to illustrate how removal of any of these things controls the fire.

Hint:

This is what you breathe.

Hint:

This is anything that burns.

Hint:

This makes you warm.
