

DO YOUR PART! BE SAFETY SMART[®] THIS HOLIDAY SEASON!

SAFELY DECORATE FOR A MERRY HOLIDAY

1. LOOK FOR THE MARK AND PREVENT A SPARK

Use light strings and other electrical decorations that bear the UL Mark.

2. THE LIGHTING KEY IS CONNECT THREE

Do not connect more than three midget light string sets together. Light strings with larger, screw-in bulbs should have no more than 50 bulbs connected.

3. INSPECT YOUR GADGETS

Carefully inspect decorations before use. Cracked sockets, frayed or bare wires, and loose connections may pose fire or shock hazards to you or your family.

4. MEASURE THREE FROM THE HOLIDAY TREE

Position your tree at least three feet away from fireplaces, radiators and other heat sources. Make sure your tree isn't blocking a doorway or exit route.
